

Northern Plains Power Shift!

Hello Everyone! On behalf of the Energy Action Coalition the Indigenous Environmental Network would like to invite you to the Northern Plains Regional Power Shift! Join us October 23-25th in Fargo, North Dakota to take part in the regions biggest youth event on climate change of the year! Youth around the country are taking action on climate change and you can too! Take a look at what youth across the country and around the world are saying:

WE WILL REBUILD OUR ECONOMY AND RECLAIM OUR FUTURE

We can create millions of jobs that put Americans back to work.
We can repower America with 100% clean energy and end our dependence
on dirty, polluting fossil fuels and nuclear power.

2009 IS OUR YEAR!

This is the first year where both houses of Congress will consider climate and energy legislation. Young people catapulted into political power with a massive voter turnout in 2008, and now we need to use that same power to fight for the strongest legislation possible and rally to make our vision a reality

BUILD THE POWER SHIFT MOVEMENT
